

Manager for M&A / Corporate Finance / Transaction Support

Zürich

Our Client

Is the 6th largest international audit and advisory firm in the world. Our client's entity in Switzerland/Liechtenstein employs approximately 150 professionals and is a growing auditing & advisory company looking to further strengthen its position in Transaction Services/ M&A.

Your main responsibilities

- Leading the execution of varied and complex M&A/Corporate Finance transactions along with Transaction Support (Diligence) projects
- Perform complex valuations and financial modelling projects
- Support clients in external growth initiatives from strategic initiation throughout the transaction execution and the post acquisition phase (integration process)
- Supporting the generation of new business opportunities and business development initiatives
- Lead project teams and support the development of junior staff capabilities/skills

What we offer

- You get the chance to work in a prestigious and leading international audit & advisory company
- You can expect a challenging and varied job in a dynamic environment
- We offer you a career development opportunity with a high diversity of projects
- A modern workplace with an attractive compensation and a fair corporate culture
- You will be part of an experienced and highly motivated team and will be supported by a flexible organization

Your profile

- A minimum of 5 years of relevant work experience in merger & acquisitions / corporate finance / transaction services, coming from an M&A boutique, a large international audit & advisory firm or a Corporate Finance division of a bank or a large corporate is mandatory
- You possess a master's degree in finance & accounting or related fields
- Additional certifications such as CFA or (Swiss) CPA is a plus
- Fluent in English and German. Any additional language is a plus
- As a natural leader with commitment and dedication to teamwork you are experienced in international (cross-border) business and willing and able to travel
- Experience in both industry and financial services is a plus
