

«BECOME PART OF A
CREATIVE, INSPIRED
AND ENGAGED TEAM
ON A MISSION.»

With offices in 150 countries and more than 200,000 people, our client is among the leading professional services networks in the world. Our client helps organizations and individuals create the value they're looking for, by delivering quality in assurance, tax and advisory services.

CONSULTANT / SENIOR / MANAGER / CIO STRATEGY CONSULTING

ZÜRICH OR BASEL

YOUR TASKS

- You will support clients and guide them through technology programs. Your role will involve working within our client's teams where you will assess the client's current situation, support analysis and preparation of recommendations, and get involved in delivery of change
- You will build and sustain trusted internal and external relationships, communicate effectively, both verbally and in writing, with different audiences
- You will be part of a fast-growing team, uniquely positioned as a leader in this market in Switzerland, offering a full range of consulting services, from strategy to execution, which gives you a wide range of project opportunities
- You will find a friendly and supportive work environment, nonhierarchical and committed to providing you the professional development opportunities you seek

YOUR PROFILE

- University level degree (Master, MBA or PhD)
- Over 5 years of professional IT experience, ideally gained in a large multinational organization or consulting firm
- Experienced in building customer relationships and developing business opportunities
- Experienced in leading project teams and dealing with all project aspects (risk management, financials, etc.)
- Excellent interpersonal skills, capable of engaging directly with senior level clients
- Strong analytical capabilities and positive result driven personality
- Demonstrate working knowledge of one or more of the following:
 - IT Strategy definition
 - IT Organization Design, Processes, Governance and Service Levels
 - IT Project Management and complex program delivery
 - IT Portfolio Management, IT Finance, Budgeting and Planning
 - IT Merger and Acquisition
 - IT Innovation – (e.g. Cloud, Software robotics, etc.)

- Platform and Infrastructure Architecture
- Enterprise and Solution Architecture
- IT Service Management & Operations
- Awareness of methodologies and best practices such as ITIL, COBIT, TOGAF, Prince 2, etc.
- We are seeking candidates with experience of most industries. An understanding of the technology challenges relevant to global organizations in the Life sciences, Banking, Insurance and/or Manufacturing industries would be relevant
- Very good command in English; fluency in German is desired; additional languages are considered advantageous
- Full travel mobility

YOUR BENEFITS

- You will work and grow in a cool and highly motivated team
- You will benefit from world-class training and development programs, as well as abundant ongoing professional learning opportunities
